

??????

The screenshot shows the OneDrive web interface. On the left, there is a navigation pane with options: 所有檔案 (All files), 近期 (Recent), 最愛 (Favorites), 分享 (Share), and 標籤 (Tags). Below this, there is a section for 回收桶 (Recycle bin) showing 在1 GB使用了3.1% (Used 3.1% of 1 GB) and a 設定 (Settings) gear icon. The main area displays a file list with columns for checkboxes, names, icons, and metadata (size and modification time). A context menu is open over the file '範本.odt', with a red box around the '詳細資料' (Details) option, labeled with a red '2'. Another red box is around the three-dot menu icon, labeled with a red '1'. The file list includes: '範本.odt' (1.4 MB, 20 minutes ago), '專案進度.ods' (13 KB, 2 hours ago), 'ODF.odp' (81 KB, 2 hours ago), '12.odt' (8 KB, 4 hours ago), '11.odt' (8 KB, 4 hours ago), '09.odt' (8 KB, 4 hours ago), and 'OXOOL\_資料.odt' (20 KB, a day ago).

名稱	大小	修改時間
範本.odt	1.4 MB	20 minutes ago
專案進度.ods	13 KB	2 hours ago
ODF.odp	81 KB	2 hours ago
12.odt	8 KB	4 hours ago
11.odt	8 KB	4 hours ago
09.odt	8 KB	4 hours ago
OXOOL_資料.odt	20 KB	a day ago
